

## **CLOUD ARCHITECT (M/F)**

★ Luxfactory is an Economic Advisor and Innovation Partner for startups, SME and big companies. For more than 25 years now, we have been improving our offer to meet the market best standards. Luxfactory is also specialized in digitalization. As a certified Fit4digital consultant by Luxinnovation, we offer SME audits granted by Luxinnovation. Luxfactory is also IT consultants' provider and IT material reseller, new or second-hand in the framework of circular economy. Luxfactory is a major actor of innovation in Luxembourg: as an incubator, we have been able to host high potential startups to help them grow through 4 programs and Luxfactory is every year official organizer of the Luxembourg National Pavilion at the Consumer Electronics Show in Las Vegas ★

For our customer, based in Luxembourg, we are looking for a **cloud architect**.

Are you passionate about Cloud technologies? Are you familiar with designing Multi-Cloud and customized hybrid IT solutions? Do you combine both analytical and technical skills with a commercial attitude to communicate at all levels within an organization? Then we have the right role for you!

### **Your tasks**

There has never been a better time to join Fujitsu's Multi-Cloud Services team. Due to ongoing success within a number of strategic partners including Amazon Web Services and Microsoft Azure, we are making significant investments into our offering and have aspirations of becoming Luxembourg's leading Multi-Cloud Services Provider.

As a Cloud Architect, you will be bringing your expertise to deploy strategies and solutions around infrastructure and cloud transformation, both from a business and technical perspective:

- You are a rock star when it comes to designing and creating an AWS / Azure roadmap to follow when building complex Cloud solutions
- You will focus mainly on the design, implementation, and support of Microsoft Azure-based environments
- You will lead deep technical workshops on customer site and deliver cloud-based solutions

- You will provide expertise and leadership regarding Cloud Architectures for both infrastructure and applications in Microsoft Azure
- Migrate (Lift & Shift / Lift & Shape) a big infrastructure onto Microsoft Azure (for now)
- Assist on other Cloud projects if/when needed (Azure & AWS mainly)

### Your profile

- You have 10 years' experience in IT and 3 years' experience working on engineering and architecture including requirements definition, architecture development, development of use cases and stories, systems integration, and test
- Prior experience as a Cloud Solution Architect supporting cloud architecture, design, implementation, operations and automation in Azure is required
- Certifications such as Azure Solutions Architect Expert and/or Azure DevOps Engineer Expert would be considered as an advantage
- Skills in Terraform, PowerShell, Bash, Azure Resource Manager / AWS Cloud Formation, DevOps, Kubernetes would be a plus
- Soft skills: articulate Cloud professional with a consultant mindset and strong commercial awareness
- You have worked in a customer-facing (external or internal), consulting or client service delivery role
- Business fluent verbal and written communication skills in English, German will be considered as an asset.
