For our customer, based in Luxembourg we are looking for a **senior coordinator – IT Delivery Lead on Treasury**.

Your tasks

- Take the lead on IT Treasury stream projects related to our Transformation Plan and to Regulatory / Market Mandatory constraints. Overall coordination of the analysis, design and test phases in collaboration with all teams involved (including various external partners)
- Understanding of business needs, challenge them (must-to-have versus nice-to-have)
- Lead & deliver functional & technical analysis by proposing implementation scenarios based on architectural principles and guidelines
- Ensure IT team capacity based on projects plans (bank-wide projects portfolio) & identify additional needs / skills
- Contact person regarding IT topics related to all projects managed within team or external projects where team is impacted
- Ensure quality of estimates provided by team with accuracy and assumptions
- Plan project and follow execution with teams
- Manage risk & issues, scope changes, dependencies, ...
- Being accountable of what the project is expected to deliver (cost, scope, deadlines, quality) and why those elements are important to our customers, the market and the organization
- Provide a clear status and ensure reporting activities
- Follow, supervise and animate the stakeholders
- Strong communication skills to share the progress with all actors involved (Business, internal & external partners).
